

Our company

For 70 years the ROLF WEBER GRUPPE has been known around the world for its unique stock of bearings. Our customers from trade, industry and craft find us a competent and powerful partner. For them we expand our range of industrial products constantly, carefully choosing what to stock.

On 25,000 m² we store over 600,000 articles: Not only the complete product range of FAG / INA, SKF and NADELLA, but also an extraordinarily wide range of special types, hard-to-find references and accessories.

To satisfy our customers needs we place emphasis on our product availability and fast shipping experience. We are certified according to DIN EN ISO 9001 since 2001.

Our team includes engineers and technical specialists with year long experience. This way we are able to assist you with technical details immediately.

We love to put our huge availability to your service - not only in case of urgent breakdowns.
